"What do yourself think, Mary?" said I. | period. "I do not think I am," she repited solemn-

"Where was your mistake?" I inquired. "I mistook conviction of sin and a knowledge of my duty for real conversion. I resolved to do every known duty, and thought love to Christ would be the consequence .-But I find that I never surrendered my will. I have not done religious duties from a love for them, but because I thought I must, or and that which is far more nutritious, than perish. The service of God is not a delight. those that are idle. No, no, I am not a Christian!"

of her decision, and with deep solicitude I storms of rain, sleet and damp snow, and awarned her that her immortal interests were gainst lying out on the cold ground in cold still in jeopardy, and besought her now, that nights, in the spring and fall. she saw her mistake, to come to Jesus in the only acceptable manner, giving herself up to him without one mental reserve. She was attentive, but would make no promise. An almost despairing sudness seemed to be settling down upon her mind.

"Perhaps you will not like to have me talk | BCorner, I will sell off my Goods with you in future as I have in the past," I

·O yes, do talk with me as you always The stock of Goods is large and well selectedhave," she replied. "But I do not wish oth- comprising a general assortment of

ers to speak to me about personal piety at DRY GOODS, present," she added with a sigh. By Mary's request, I informed her young

companions of her state of mind, and requested them not to mention the subject to her. We all felt the deepest solicitude lest she should sink into a despairing apathy, and never more seek to know Christ the crucified. But earnest prayer in her behalf prevalled. Though for some time silent, and unapproachable to any but her teacher, Mary's mind remained tender, and after the lapse of two years, she gave herself to the Saviour in an entire consecration, found peace in believing, and is now a constant member of the visible church.

What a lesson is this narrow escape from a fatal mistake to Sunday-school teachers, contains about 50 acres of land. and to all those who are endeavoring to lead sinners to Christ! How carefully should we seek to discern the motives of the convicted soul, and while on the one hand we do not "quench the smoking flax," on the other, how carefully and perseveringly should we strive to prevent the building of eternal hopes on any other foundation than the Rick of Ages. I now offer the same at the very How all important that the young should clearly understand and fully realize that there Call and see for yourselves. ne, unqualified submission of the will, a Jan. 30, 1860.

farm, Garden and Sitchen.

How Frequently Shall We Fodder.

"How often in the course of the day shall stock be fed?" is a question answered varithe flock were the special subjects of the gra- ously by different farmers, some advocating but two meals, the majority giving three, while others give fodder five or six times daily. From considerable experience in the care of stock, we have formed the opinion that animals are best satisfied, and most economically wintered when they have four or who came considered themselves committed five foldurings between daylight and night-

Animals fod but twice a day must be fed quite a large quantity, or they will have a good deal of unoccupied time, in which their anxiety for a fresh supply of food cannot be particularly conducive to thrift or quiet. And when largely supplied, large waste very frequently results, unless the fodder is placed where it cannot be wasted, which is not often nor was there any apparent, except in her the case with those in this manner. The more faithful attendance upon all the means hungry cattle or sheep, after so long a fast. run from one supply of fodder to another About three months after her professed the stronger animals driving the weaker away much more than is the case when feu

Three fodderings a day is thought as many as can be conveniently given by a majority of farmers. It is, when the farmer's business takes him much away from home, but a farmer ought to have no business which should cause him to neglect his stock in winter. When cattle are stabled, they ought to have a good feed as soon as light, (and they "I want very much to come and spend the should whether stabled or not,) and after Sabbath with you," said Mary, when we a- that is eaten, be watered and fed again; at gain met, "I want to have a long talk with noon another supply of food should be given, and after that water and a small foddering, to be followed by a full one for the night. This makes five fodderings in a day, and those may be varied in material or quality, so

frequently.

With plenty of corn fodder and straw, and hay in short supply, we have tried the fol lowing routine: First cornstocks fed on the frozen ground, or cut in pieces a foot long and fed in boxes or mangers, (in both cases the buts reserved for fine cutting and steamme about uniting with the church," rhe re- ing.) next a feed of straw, slightly brined, if otherwise well eaten, hay at o "Did you seek divine guidance, as I re- straw for the afternoon meal, and cornstocks again at evening. Cut feed and meal when ted are usually given at noon instead of hav. Thinking perhaps her extre ne diffidence, We never had cattle do better, or fodder more economically consumed with as little

labor in its preparation. Sheep and calves need feeding four or five doubt, I merely said, "It certainly is not your times a day, to have them eat well, without duty to enter the church in your present wasting their food, and without ever getting very hungry. If they have a pretty free supply, they are very apt to pull it out of their racks more or less, and always feed less qui would give hay but twice per day, even if very plentiful, giving bean, or pea, or oat, or some kind, oats, barley, beans or corn, once a day through the winter. Good shelter and water should in all cases be provided.

then was the thought that I might lean on dation of frequent foddering more fully. Evan arm of infinite strength, and grace was ery farmer knows that his stock is far more quiet some days than others, that they eat better and waste less, and seem satisfied with far less attention. The restless days of storm and wind, when we would best like to be qui feelings, and motives of action, as plainly as et ourself, we have found the very days when our farm stock demanded our almost constant attention. Then we found the rule free from interruption, and have all this long "feed a little and often," of the most importarce, and it is after such a day, and one After a pause of a few minutes, she said, spent mostly in the barn and yards, that we "I cannot express my teelings; will you explain them for me and I will tell you if they man.

The Health of Cattle.

The American Veterinarian contains the following good advice towards promoting the health of cattle. There is a good deal in

Weeks' Magic Compound Paddock Machine Works. Weeks' Magic Compound

Weeks' Magic Compound

A sure and sovereign remedy for Coughs, Bronchitis, Colds. Hooping-Cough, Hoarseness, Sore Throat Influenza FEVER AND AGUE. It is warranted to relieve the croup in five min-

To break up a common cold in a single night. To relieve the asthma at once. To cure all coughs and diseases of the lungs previous to ulceration. To break up the chills and fever in five days.

Messrs. E. B. MAGOON & CO.

BARNET, VT., Nov. 3, 1858.

It affords me great pleasure to add my testimony in favor of your invaluable medicine—the Magic Compound. I had been subject to a most distressing cough for more than forty years, and had tried several remedies without deriving any real benefit. My cough continued to grow worse every winter till the winter of 1856, then I was confined to my bed, and all who saw me thought me dying with consumption. My son, who had just been cured of a bad cough by using part of a bottle of your Compound, gave me a few doses of it. This helped me so much that I procured a bottle, and before I had used all of this I was restored to health. Since then I have had no cough, and though I am about seventy years old, I enjoy good health; and I attribute it all to your medicine—the Magic Compound.

Very truly yours,

LEVI BEAN.

Read the following from one of the best Messrs. E. B. MAGOON & CO.

Read the following from one of the best | English, "I have used Weeks' Magic Compound in my own family with most signal success, and do not hesitate to pronounce it, in my opinion, the very best cough medicine extant. In every case, so far as my knowledge extends, where it has been used, it has given the greatest satisfaction.

[N presenting you with Dr. Eaton's Infantile

Cordial, we desire to state its superiority over every ostrum that nurse or quack has heretofore offered you. First—It is the preparation of a regular physician, who is well qualified from much experience in imantilecomplaints to prescribe for them. Second—It is entirely free from paregoric or oplate of any kind, and consequently released by removing the suffering of your child, instead of deadening its sensibilities. Third—It is put up with great care, as a comparison of it with any other article will show; the very roots from which it is distilled being dug from the firest; under the direction of Dr. Katon, many of show; the very roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourth—It is perfectly harmless, and cannot injure the most delicate infant, and is a certain cure and rehef in all the following cases, which is its chief merit over every other preparation, viz.:

For all complaints attending teething, such as dysentery colic, &c; also for softening the gums and relieving pain For regulating the bowels it is unequalled. For cold in the head it is a sure relief. For croup, the most fatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsions of fits, we earnestly recommend you to lose no time in procuring it. Lasny—It costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason it compense is their advertising; for the same reason it com-mends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle must be

BLOOD FOOD! DR. BRONSON having been so far reduced by consumption as to be somsidered beyond all hope of recovery by the most eminent of the medical profession, and also by oinself—a regular physician of twenty years' practice—as a last resort conceived the idea of analyzing the blood, and applying the subject of physiology to the more immediate connection and effect of the state of the blood upon the health and system. The result has been the production of this "Blood Food." from the use of which Dr. Bronson was restored to perfect health. Within six months after its introduction, over two thousand consumptives were effectually cured by it. If you have any complaint of a censumptive tendency. Cough, Cold. Heasiache, Palpitation of the Heart, Loss of Appetite, or Pain in the Side, lose no time in procuring a bottle of the Blood Food. If you are suffering from Nervous Debility, or your sleep is broken and disturbed, if your spirits are depressed or your organs relaged, you will find in this an unfailing remedy, by commencing with ten drops. If your liver is torpid or diseased in any way whatever, one or two bottles will be sure to invigorate, and bring it into lively and healthful action. In the most inveterate cases of Dyspepsia, the patient can here find the most efficient and grateful relief. A benefit is always experienced after taking only one bottle. In Male or Female Complaints and Weaknesses, the sufferer, after trying other remedies in vain may rest assured that a certain cure will result from the use of two or three bottles. The Blood Feod is effectual in all cases of Eruptions. Balt Kheum, Scrofula and other like complaints. Pale and emaclated children and adults are immediately benefited by its use. It gives strength to the body, and color and beauty to the skin. Physicians of all schools are using it with wonderful success.

For full particulars see circulars. Price \$1 per heately. DR. BRONSON having been so far reduced by consump-

THE Eastern States, including New York and that section of the Union which is most widely known as "New England," contain a thrifty, industrious, intelligent people who have achieved an uncommon degree prosperity: with a climate extremely trying to certain constitutions, and a soil of small fertal ity, they have contrived to surpass more favored communities in almost every thing that conduces to social comfort and happiness. Un. fortunately, they are occasionally so absorbed in business and mental cultivation, that they neglect the precautions which are essential bodily health. Dyspepsia and physical debelaty are prevalent among all classes. The first disease is produced by inattention to the digestive organs, which are so susceptible of derangement, Thousands are now paying the penalty of this neglect, and suffering daily the most trung pains, almost without a hope of relief. They have come to believe that their ailment is chronic, and that they must bear with it to the end. It gratifies us exceedingly to announce to these afflicted individuals that they may now command a remedy of unquestionable potency and virtue, which has never been found to fail in all cases of digestive weakness or derangement. Hundreds of tongues are ready to grow eloquent in praise of this wonderful conqueror of dyspepsia, which is known as

DR. J. HOSTETTER'S CELEBRATED STOMACH BITTERS

But that numerous class who devote themselves to literary and other sedentary pursuits, and in consequence of a want of physical exercise, become the victims of languor and debility, without nerve or appetite, have hitherto sought in vain for some invigorating, life-giving medicine, whose effects upon the system shall be both speedy and permanent. Physicians of eminence, and profoundly acquainted with the requirements of the human frame, commend HOSTETTER'S BITTERS as the safest and swiftest stimulant to the recuperative energies of the system yet discovered. It restores the appetite, gives fresh vigor to the digestive organs, sends the blood through the veins with a more lively current, corrects a tendency to depression of spirits, and fits a man for the transaction of business with a cheerful heart and an active mind. Unlike other medicines which have been devised for the same object, the BITTERS do not act spa-modically, or with a temporary power - the influence of the remedy is lasting. And if a patient will but give some attention to securing proper exercise, after the relief has been afforded, he need fear no return of the affliction. The debility natural to the encroachments of years upon the bodily frame is also alleviated by this great strengthening medicine, thus chabling Miss H. B. COREY, - - - - Preceptress | ease; whereas they are now suffering from extreme weakness and nervousness. To this ven erable class of people, HOSTETTER'S BITTERS may be commended as invaluable. The proprietors of this invigorator have,

> tioned by physicians as proper to be administered during the period of nursing; and this has obtained an universal preference. AT Those who desire to purchase this great remedy for Dyspepsia and Debility should remember the preise title, HOSTETTER'S CELEBRATED STOMACH BITTERS. It is put up in quart bottles, with the name, DR. J. HOSTETTER'S STOMACH BITTERS, blown on the bottle, and also stamped on the cap covering the cork, with the aut graph of HOSTETTER & SMITH on the label. These things are important, on account of the numerous counterfells

in addition, a deep gratification in assuring

NURSING MOTHERS that they will find

the BITTERS the best and safest of

restoratives. Very few medicines are sanc-

er Prepared and sold by HOSTETTER & SMITH, Pittsburgh, Pa., and also sold by all druggists, grocers, and dealers generally throughout the United States, Canada, South America, and Germany.
